

There are more than ONE THOUSAND AND ONE ways to serve American youth through your support of the Naval Sea Cadet Corps (NSCC), a federally chartered non-profit youth training organization.

The NSCC serves youth by building in every cadet a sense of patriotism, courage, self-reliance, confidence, leadership and the qualities which mold good character and citizenship while providing instruction and practical experience in the prestige of a military career, thus boosting the quality of our nation's manpower.

You can assist by entering the number "1001" in the appropriate block on the CFC pledge card.
